

THUNDERCAT 1000

• Engine •

Displacement	950cc
Engine type	V-TWIN SOHC 4-stroke 4-valve
Bore and stroke	92x71,6 mm
Ignition system	Electrical
Transmission	Automatic CVT with EBS
Cooling	Liquid
Drive	2/4 WD with differential lock
CO emissions	No street homologation

• Frame •

Type	Steel
Front suspension	Double A-arm, spring preload adjustment (5 positions)
Rear suspension	Double A-arm, spring preload adjustment (5 positions)
Front suspension travel	25,4 cm
Rear suspension travel	25,4 cm
Front brakes	Hydraulic Disc
Rear brakes	Hydraulic Disc
Front tires off road	25x8-12
Rear tires off road	25x10-12
Bodywork	Painted

• Dimensions •

L x W x H (cm)	215 x 121 x 125
Dry weight	328 Kg
Wheelbase	133 cm
Ground clearance	27,94 cm
Front rack	45 kg
Rear rack	90 kg
Towing capacity	476 Kg off road
Max. tank capacity	24,6 L

THUNDERCAT 1000

PROFILE

- Powerful acceleration, extraordinary power: the ATV that exceeds every limit
- For adventurers hunting for the extreme
- Thundercat: the new boss

ADRENALINE AT 1000

The new ARCTIC CAT double cylinder H2 950cc 4 stroke EFI engine can hold its own against anyone when it's up to acceleration and towing capacity.

The Thundercat is equipped with a new ride-in suspension system which lowers center of gravity and even increased driving control.

All that new found horsepower needs to be harnessed, so the engineering staff lengthened the stance of the Thundercat for high speed stability and predictable cornering.
